

6 January 1959

MEMORANDUM FOR: 25X1A

The Director did speak on international communist front organizations to this organization several years ago. It is an excellent forum. I do not know whether the subject, "Important Aspects of Psychological Warfare" would be a suitable subject for the Director; I would think it would not be. Should there be some subject on which the Director might like to speak such as the changing conditions in Red China, this of course, would be a good opportunity for a national audience.

STANLEY J. GROGAN
Assistant to the Director
